## Introduction

Golden Globe Services was established in 1998 with an objective to provide product and services in the area of networking. The company place greater emphasis in understanding the customer need, budget and resources. This enables us to design a cost effective approach towards developing a solution. We build solutions to help business to manage networks of any size.

Golden Globe Services seizing the power of disruptive technology to convert the physical into digital intelligence changing your outlook and your outcomes.

## Range of Services

Network infrastructure solution provided by Golden Globe Services consists of market leader product and services offering for all size of organizations. Thus providing clients improved communications and insight resulting in significant operational cost saving. IT infrastructure solutions cover the full extent of enterprise network convergence, including:

- Structured Voice & Data Cabling
- Networking Devices Integration
- Routing & Switching
- Wireless Network
- Security Surveillance
- Stateful Firewall Solution

The scale of the solutions engulfs all the pieces of the networks ranging from data link devices providing complete solution, security solution and outdoor wireless bridges.

## Building Blocks

### People:

- Friendly & Welcoming
- Research Oriented
- Savvy & Pragmatic
- Proactive in Approach
- Technically Versatile

### Process (procedures):

- Project Objective & Scope
- Technical & Financial Approvals
- Agreed Milestones
- Documented Each Phase
- Transferred to the Client

### Technology:

- Integrated Hardware & Software
- Designed to meet your Management Requirements
- Customized to Manage your Specific Environment
- Cost Effective

### Services Portfolio:

NSS provides variety of on-site or remote services to meet the specific needs of its customers. It can place specially trained engineer at the customer's site or remotely manage the customers network from a NSS built enterprise management control center. NSS Services include:

- Design
- Integration
- Transfer of Knowledge (Training)

## People:

The design of the system is the first and most crucial step toward effective enterprise network management. NSS engineers apply a well-defined methodology to come up with a comprehensive solution keeping in mind the following design engagements:

- Organization Requirements
- Data & Voice Networks
- Network & Physical Security
- Remote Sites
- Network Management

## Integration (implementation):

The next step is making the design alive to integrate and customize the individual components of the solution to transform the theory into reality. Our integration services include:

- Structured Cabling
- Wired & Wireless LAN
- Surveillance System
- Network Configuration
- Edge Security (Firewall)
- Voice/Telephony Integration

## Transfer of Knowledge (Support Portfolio):

Dedicated help desk and call logging system

Dedicated customer support representative with dedicated phones

In-house backup inventory dedicated or pool basis

Project or time based SLA including 8x5x4, 8x5xNBD and 24x7 supports

Resident engineer or network management services for remote locations

## Some of our Clients

A selection of Golden Globe Services work from the past few years is the following:
